A Specialist Tyre service for Road, Rally or Track

Newdigate Tyres was established over 20 years ago primarily as a Motorsport Tyre Dealer. We now specialise in anything requiring tyres either for road, rally or race that has been manufactured between 1900 and the present day.

All of our staff our Motorsport enthusiasts, and have at some time or other competed in most forms of motorsport, we are therefore able to offer advice based on our own experience for the purchasing of anything from a set of Dunlop M Section tyres for a pre war racer or for a set of tyres for your modern day track day car.

And of course we are able to supply any make of modern day tyre for anything from a Smart car to a DB9.

In addition we do offer a FREE mobile service to any CSMA member living within our covered area, which is about a 15-20 mile radius of Gatwick Airport.

So please. if there are any members requiring tyres, whether it is for motorsport or for your standard road car then please give us a ring, mention you are a CSMA member and hopefully we can quote you happy.

For any member who lives too far away to get to us, then we are able to offer a mail order service.
